

# AUDIO2COMMONS

**Decolonizing objects using audio on wiki commons**

Project by Sandra Becker, MEG 2023 and GLAMhack 24

# AUDIO2COMMONS

## General ideas, background

- New museum definition: focus **from objects to people**
- Decolonizing is about giving objects back to the original communities where they come from
- Using people's personal experiences for new narratives
- Share vulnerability, show invisible labour
- Put people in centre

# AUDIO2COMMONS

## Challenges and goals

- Making the audience to an active partner for social change
- Show stories of displacements
- Dialogue with objects
- Audiofiles used as content devices
- Audiofiles to be tagged
- New knowledge created with Audio

# AUDIO2COMMONS

## Steps and procedures

- Asks people about their experience with museum objects
- Put the audiofiles to commons
- Create categories and structures
- Make this data available for research by creating **structured data**
- **Have HerStory as Audiofiles to share on Commons**
