Problem

The current website must serve many different user groups with very different needs.

Challenge

Development of a solution to present the services, participation opportunities and rooms of Garage8 on the website in a low-threshold and interactive way.

Users/Personas

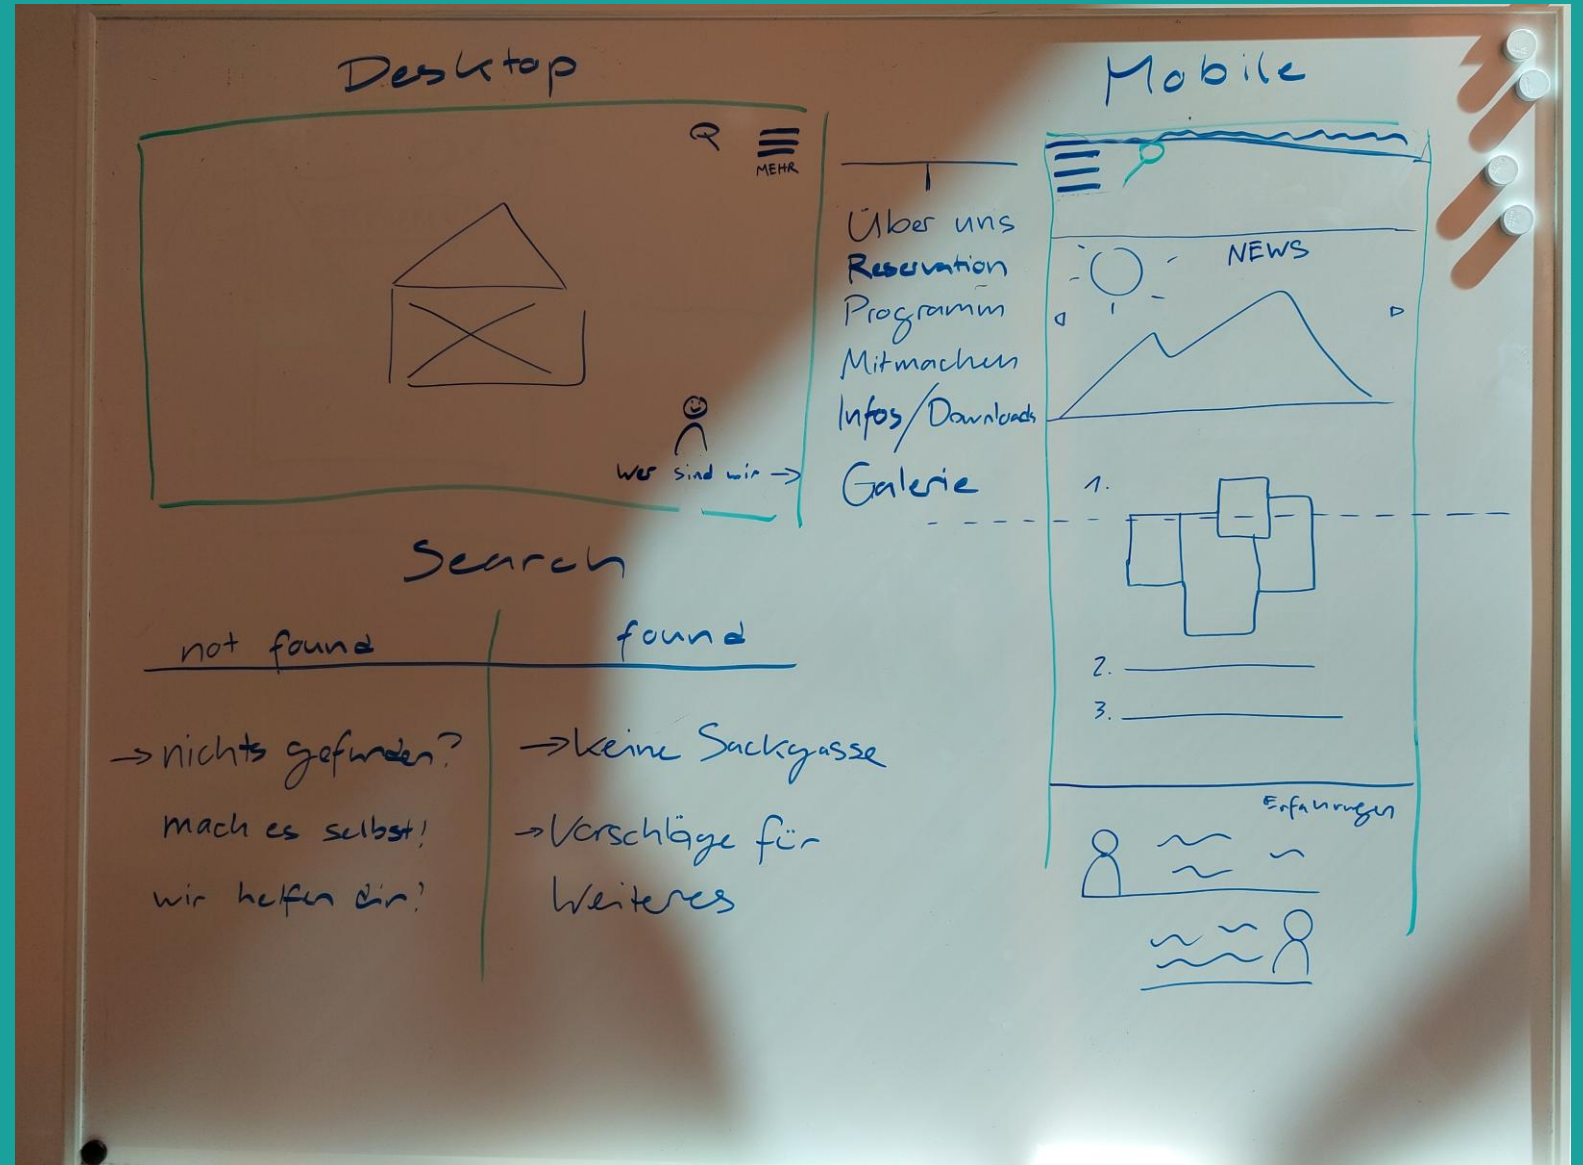

Name, Age	Anna, 16	Ivan, 25	Nils, 40	Regula, 53	Miss Flückiger, 46
Role	Apprentice	Student	Politician	Parent	Teacher
Ideal User Experience	can see that the location is cool and for people in her age. finds upcoming events and the rooms she can use.	quickly found the specific information he was looking for and discovered something new on the way	Wants a quick overview. Wants to be able to show off the Project	fast information on staff, security and youth protection. quick insight into the offer and location with a good feeling	Quick overview, not too much information

Goal

Create a landing page that quickly guides different user groups to the information they need and lets them discover new things along the way.
