

# OPENNET

MyCityCO<sub>2</sub>

## GovTech Hackathon 2024

Bern – 14/15 march 2024

## Context

Climate change forces all of us to be creative and to act.

Less than 1% of the cities computes their carbon emission. How can you improve what you cannot measure?

## Challenge

Internationalization of MyCityCO2 platform (France already done) with the integration of Switzerland cities

## Data

- Switzerland cities financial data
- Exiobase Emission factors database
- Switzerland population data

# Information

## Languages

English, French

## Technologies

Vue.js  
Python
